Introduction

Thank you for purchasing Nanlite product -- PavoSlim 60B!

The bi-color slim panel light is designed for content creators and commercial shooting teams. It possesses color temperature ranging from 2700K to 6500K (promptly toggle between common used CCT by short press) and 12 effects. The parameters of each effect is fully tunable for more creation possibilities. It provides multiple power options by equipped with AC socket, NP-F and V-mount battery holder, together with control methods of on-board, Nanlink App and DMX/RDM, meets the control requirement from basic to professional-grade. The included softbox, diffuser and eggcrate will further unleash users' creativity.

With slim and lightweight fixture body of 1×1" size, PavoSlim 60B is particularly suitable for small space, run & gun situations, providing a great help on content creation, commercial, film and television production lighting setup.

Notice

- 1. Please do not look directly at the emitter when the fixture is on.
- 2. Please do not place any object on the fixture or allow liquid to flow inside the fixture.
- 3. Please do not place the fixture near any flammable or volatile substances like alcohol or gasoline.
- 4. Please do not use strong detergent for cleaning. Please wipe off the dirt by using a cloth with neutral cleanser when cleaning the fixture.
- 5. Please set up the fixture in a dry and well-ventilated place. Please do not use it in any humid, dusty or overheated environment. Meanwhile, please also check whether the fan and vent are unimpeded.
- 6. Please do not disassemble the fixture to repair at will. Qualified professionals should conduct maintenance under the condition of strictly following the operating procedures described in this manual.
- 7. Please do not cover the vents when using, to avoid affecting heat dissipation, and resulting in damage. Please pay attention to anti-scald when using the fixture for a long time, since the surface temperature of fixture will be high.
